Environmental Policy

At Lynn River Limited, we recognize the importance of protecting the environment and are committed to minimizing our environmental impact in accordance with ISO 14001:2015 and other applicable environmental regulations and standards. We are dedicated to implementing environmentally responsible practices throughout our operations and striving for continual improvement in our environmental performance.

Our commitment is to:

- Protect the environment;
- Minimize our environmental footprint by preventing pollution and reducing waste generation at the source;
- Comply with all relevant environmental laws, regulations, and standards applicable to our operations
- Work towards continuous improvement.

The objectives we will pursue to satisfy this commitment are:

- Implementing measures to conserve resources, minimize energy consumption, and optimize the use of materials throughout our operations;
- Regularly monitor changes in environmental legislation and ensure that our practices remain in full compliance with these requirements;
- Manage our waste streams responsibly, striving to minimize waste generation, maximize recycling and reuse opportunities, and ensure safe and proper disposal of any remaining waste materials; and
- Provide information about any potential environmental hazards to relevant clients, authorities, employees, and other affected organisations.
